NOMASTYL® PURE NE4

THE FIRST DESIGN FOR EDGELESS TRANSITIONS

NOMASTYL® PURE is a new concept for mouldings, allowing room's corners and edges to be elegantly shaped in a modern and pure manner.

Wall and ceiling are joined with the help of flowing, edgeless transitions, conferring natural well-being in a modern, contemporary setting.

1 MOULDING – 4 POSSIBILITIES

Discover the NOMASTYL® T4 moulding, an economic profile adapted to the lines of contemporary architecture.

With its small size, the T4 integrates harmoniously into refined interiors and highlights them with a delicate shade without over emphasizing them. With 3 gluing surfaces, it offers the advantage of being able to be installed in many ways. Discreet, it does not lack character, as evidenced by its sharp edges.

NOMASTYL® T4 provides a simple but effective solution to the problem of unsightly joints between walls and ceilings.

CALCULATING THE AMOUNT OF MOULDINGS

For mouldings: measure the perimeter of the room and add 10% to cover waste from cutting the corners.

For chair-rails and baseboards: measure the perimeter of the room less the width of any openings such as doors and windows. In that case, add 5% for waste.

CALCULATING GLUE USAGE

USEFUL TIPS

ACCLIMATISATION

To avoid expansion or shrinkage of the mouldings due to variations in temperature and humidity, it is essential to leave them in the room you plan to install them for 24 hours prior to installation. Be sure, also, to avoid subjecting them to excessive variations in temperature between storage and installation, and to maintain a constant humidity level.

JOINT ADHESIVE ADEFIX® PLUS

For coving edges and joints of WALLSTYL® and ARSTYL® products with a height or projection equal to or greater than 10 cm as well as for all indirect lightning solutions, we strongly recommend to use the joint adhesive ADEFIX® PLUS.

INDIRECT LIGHTING SOLUTIONS

In order to prevent light transmission and obtain a better reflection, use the aluminized adhesive tape »NMC reflexion band« inside the mouldings before installing them.
