

CABLE DUCT KP 25

Product data:

Item No.:	8503
EAN-Code:	4007155152062
Size:	2 m
packaging unit:	35 pcs. /box

Use and advantages:

To conceal surface-installed cables and wires

- shock and impact-resistant material with extremely hard surface
- easy to process with a fine saw, a mitre box and easy glueing with DECOSA®UNIVERSAL GLUE
- can be painted with any paint
- also suitable for damp locations

Technical data:

Material: Polystyrene high density

The cable duct is recyclable.

Application:

The basis has to be clean, dry, solid, smooth and able to take a weight.

Before fixing the coverings use a mitre-box and a fine saw to cut its corners.

Apply some DECOSA® universal glue on the edge sides of the coving and press it carefully into the corner. Remove traces of glue immediately with a damp sponge. Cover joints with glue or spackle. Coverings can be painted with any paint.
